

# Sending large files to Impact

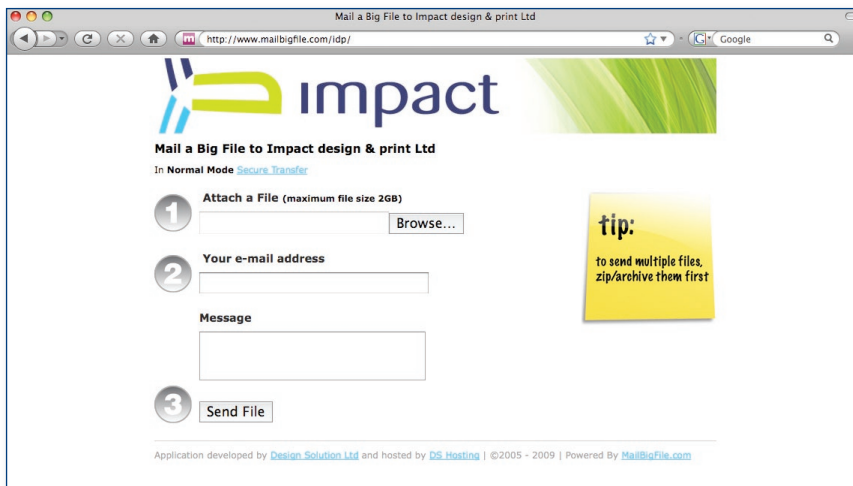

Some files or projects are impossible to email because of their size, here are some pointers:

## Email

We can receive emails up to 6mb comfortably, any larger than this and it is unlikely to arrive.

## Mail Impact a BIG file online

Go to <http://www.mailbigfile.com/idp/> and follow the simple instructions on screen to send files up to 2GB.

The screenshot shows a web browser window with the URL <http://www.mailbigfile.com/idp/>. The page features the Impact logo and the title "Mail a Big File to Impact design & print Ltd". Below the title, it indicates "In Normal Mode Secure Transfer". The interface is divided into three numbered steps: 1. "Attach a File (maximum file size 2GB)" with a "Browse..." button; 2. "Your e-mail address" with an input field; 3. "Message" with a text area. A "Send File" button is located at the bottom. A yellow tip box on the right says "tip: to send multiple files, zip/archive them first". At the bottom, it states "Application developed by Design Solution Ltd and hosted by DS Hosting | ©2005 - 2009 | Powered By MailBigFile.com".

## Post or courier

Depending on your deadline send your project on CD / DVD to the address shown below.
